

CONDITIONAL REGISTRATION - HISTORIC VEHICLES

New South Wales Conditional Registration for Historic Vehicles is available to financial members of the Italian Made Social Motoring Club Inc. (IMSMC). Conditional Registration is intended for qualified vehicles 30 years and older, that are not used as daily transport.

The NSW RMS offers two types of Conditional Registration:

- 1) **Historic** - for standard unmodified vehicles
- 2) **Classic** - for modified vehicles

Eligibility and Usage Rules are the same for both registration types:

Historic - The owner must be and remain a financial member of IMSMC whilst in the scheme and obtain the stamped RMS Declaration Form (1259) from the Club Registrar and have a current Pink Slip annually.

Classic - It is the same except the Declaration Form is a different Form (1835) and requires a Blue Slip and possible Engineer's Certificate for the initial application - then a Pink Slip and Form (1835) annually if no further modifications have been undertaken.

The onus is on the Member to report any modifications that are made thereafter.

Vehicle usage - 60 days per year plus all events including invitations from other clubs that are listed on the IMSMC Social Calendar and Events tab of the IMSMC [website](#). A Log Book pro-forma is supplied by the RMS and each day of usage must be entered prior to departing on the trip.

IMSMC calendar events do not have to be logged but all other trips including maintenance and service must be logged.

Historic Vehicles are issued with a "Historic" plate. Classic Vehicles are issued with a "D" plate.

The RMS post yearly renewals, but you must get the Club Stamped Declaration Form before you renew.

If you have a car that qualifies, and you are interested to learn more please read the IMSMC Member Rules on our [website](#).

You will need to obtain the relevant forms (Declaration Form plus the RMS Application Form) from RMS, complete them and then have them signed and stamped by the Club Registrar.

Then you can make your application at any Services NSW Centre and enjoy the benefits that this scheme offers.

Please contact the club's Historic Vehicle Registrar, Leo Di Rocco, on 0408 460 526, for further details.
